

No LIVE course? Why?

Please note: The [no course](#) policies stated below are subject to change. It is important to realize that COVID-19 policies can change practically everything.

There will not be a LIVE course taught when enrollment is below 6 students.

There will not be a LIVE course taught right before the early National February A.C.T. for multiple reasons. When LIVE courses were taught for the February Test in the past, absenteeism was extremely high. The weeks prior to the February test date include major holidays, the ending of a grading period/semester for most schools, and the likelihood of extreme weather conditions which would necessitate cancelling classes. It is very difficult to reschedule classes that are convenient for all students. The rate of homework completion was also significantly lower than at other times of the year reducing effectiveness. Finally, at least at the time of this writing, the A.C.T. is not making available their Test Information Service (see other link) for the February test date which is highly recommended for juniors and younger test-takers.
